**DETAILED ACTION**

**And**

**EXAMINER'S REASONS FOR ALLOWANCE**

1. **Claims 1-20** are allowed.
2. As regards Applicant's amendment to the claim language of Independent claims 17, 18 and 19, the Examiner thanks the Applicants' for amending the claim language. The Examiner notes that the claims are now directed towards statutory subject matter and hereby withdraws the earlier 35 USC § 101 utility rejections of those claims.  
**2.1** An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ted Shields Registration Number 31,569 on 8-24-2005.

- 2.2 In claim 1 please change "A method" to -- A computer implemented method --.
- 2.3 In claim 7 please change "A method" to -- A computer implemented method --.
- 2.4 In claim 11 please change "A method" to -- A computer implemented method --.
- 2.5 In claim 17 please change "a medium" to -- a computer readable medium --.
- 2.6 In claim 18 please change "a medium" to -- a computer readable medium --.
- 2.7 In claim 19 please change "a medium" to -- a computer readable medium --.
- 2.8 In claim 20 please change "A method" to -- A computer implemented method --.

**Examiner's Reasons for Allowance**

3. The following is an examiner's statement of reasons for allowance: As regards independent claim 1, the following limitations, in combination with other limitations are neither anticipated nor made obvious by the prior art, *"applying harvest criteria to the test case by using the test-coverage file and the harvest-goals file, wherein it is determined whether the accumulative count of hits for each event meets the initial goal, the accumulative count of hits for each event meets the initial goal, the accumulative count of hits for an event being incremented by the number of hits for the event in the test-coverage file;"* in combination with *"determining whether all test cases in the test-case list are processed by analyzing the harvest-goals file"*. Further, the Examiner notes that the Applicants' argued that the specific limitation, *"determining whether all test cases in the test-case list are processed by analyzing the harvest-goals file"* in neither disclosed nor made obvious by US Patents 6,675,138 and 6,128,258 as argued on page 13 of the 5-27-2005 response. The combination of Applicants' instant amendments to the claims and the arguments presented in the 5/27/2005 response have been persuasive and the Examiner withdraws the earlier 35 USC § 103 rejections of claim 1.

3.1 As regards independent claims 7, 18 and 19 the following limitations, in combination with other limitations are neither anticipated nor made obvious by the prior art, *"computer program code for applying harvest criteria to the test case by using the test-coverage file and the harvest-goals file, wherein it is determined whether the accumulative count of hits for each event meets the initial goal, the accumulative count of hits for each event meets the initial goal, the accumulative count of hits for an event being incremented by the number of hits for the event in the test-coverage file;"* in combination with *"computer program code for determining whether*

*all test cases in the test-case list are processed by analyzing the harvest-goals file*”. Further, the Examiner notes that the Applicants’ argued that the specific limitation, “*computer program code for determining whether all test cases in the test-case list are processed by analyzing the harvest-goals file*” in neither disclosed nor made obvious by US Patents 6,675,138 and 6,128,258 as argued on page 13 of the 5-27-2005 response. The combination of Applicants’ instant amendments to the claims and the arguments presented in the 5/27/2005 response have been persuasive and the Examiner withdraws the earlier 35 USC § 103 rejections of claim 7, 18 and 19.

**3.2** As regards independent claims 11 and 20, the following limitations, in combination with other limitations, are neither anticipated nor made obvious by the prior art, “*determining if the goal for an event is met*;” and “*incrementing the number of the accumulative hits in the harvest-goals file by the number of hits in the test-coverage file*;” and “*determining whether the accumulative count of hits for each event meets the corresponding initial goal*” in further combination with “*determining if there is another event to evaluate by analyzing the harvest-goals file*”. The combination of Applicants’ instant amendments to the claims and the arguments presented in the 5/27/2005 response has been persuasive and the Examiner withdraws the earlier 35 USC § 103 rejections of claims 11 and 20.

**3.3** Dependent claims 2-6, 8-10 and 12-16 are allowed as they depend from an allowed base claim.

**3.4** Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

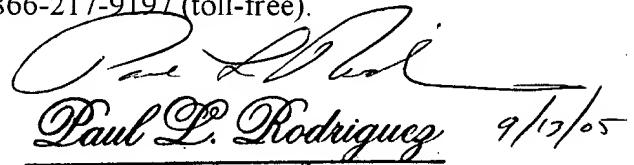

**Conclusion**

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. US Patent 6,327,551 discloses a method of extracting goals from a data structure (Abstract), "Improving Online Performance Diagnosis by the Use of Historical Performance Data" discloses harvesting historical data.
